WELCOME TO WESLEYAN

Choosing to take the next step in your education is bold — and deeply inspiring. It means believing in yourself, in your future and in what's possible when women lead.

At Wesleyan College, we believe in you.

We are the first college in the world chartered to grant degrees to women — a legacy of empowerment that spans nearly 200 years. Today, our campus is home to students from across the United States and around the world, all connected by a shared purpose: to learn, to grow and to lead.

As Wesleyan's 26th president — and a first-generation college graduate who relocated with my family from Canada to Macon, Georgia — I understand the challenges and rewards of forging a new path and facing new challenges. That's why our team is committed to supporting you through every step of your journey. From your first question about admissions to your final class, you'll never be alone here.

At Wesleyan, you'll gain more than just a degree. You'll develop the skills and confidence to shape your future, supported by professors who know your name and mentors who believe in your potential. You'll be part of a community that dismantles barriers that have historically limited women in the classroom, the boardroom, the operating room and every space where leadership matters.

Through guaranteed internships, leadership programs and personalized support, our students graduate ready to thrive — in careers, in graduate study and in life. The world needs more women who lead with conviction and courage. At Wesleyan, you'll find the tools, guidance and community to become one of them. Warmly,

Meaghan Blight
